

Moley MagStar Hydraulic Magnet Generator

This magnet generator system is powerful, innovative, safe and maintenance-free. These generators are highly durable, electronically controlled brush-less synchronous generators. The low-noise housing of the generator is splash-proof according to IP54 specifications and provides highly effective ventilation. Available in belt-driven as well.

- Waterproof and maintenance-free IP54 system
- Wide generator speed range
- Fused control box
- Self-diagnosing controller
- Variable power settings
- Magnet power is fully adjustable
- Built-in operational log

*Flange and Pump sold separately
