

GRUNDFOS PUMPS!

As an authorized distributor in New York State, Moley Magnetics provides submersible and centrifugal Grundfos pumps - known for their durability and efficiency. Grundfos began manufacturing pumps in 1945 and have become the largest pump manufacturer in the world.

Moley Magnetics offers the full line of Grundfos pumps - capable of dewatering applications, end suction, booster sets, wastewater, sewage, and more.

Contact Moley and let us help you find the right solution for your application.

GRUNDFOS 

"The world is full of problems that can be solved in a better way."

- Poul Due Jensen, Founder of Grundfos

Pumps come in a variety of designs and choosing the right one depends on the job you need to perform.

Contact us to go over options and let us help you get the most out of your pump investment.
