

Moley MagStar Diesel Generator Set

Powerful, portable, compact scrap magnet generator system.

Moley Magnetics, Inc. continues to offer the scrap, demolition, railroad, recycling, and the distribution industry the best performing, most reliable generators on the market. Moley diesel-fueled generator sets are built to world-class standards: high efficiency, low fuel consumption and global emissions compliance. Moley MagStar Diesel Generator Sets are powered by 4 cylinder Kubota engines that meet all current emission standards in North America and have the highest operating efficiency. Engine and generator are optimized for maximum cooling efficiency with zero cross contaminating air flow.

MAGSTAR	9 KW	15 KW
DIESEL ENGINE	KUBOTA 4 CYL 27HP@2,800 RPM	KUBOTA 4 CYL 27HP@2,800 RPM
MURPHY ENGINE CONTROL PANEL (W/ OIL PRESSURE & TEMP GAUGES)	With 20' wiring harness to remotely start, stop engine and control throttle from inside operators cab.	
MAGNET - Moley	ESM 30"-50"	UP TO ESM 64"
GENERATOR RUN VOLTS MAX. CURRENT	GEMA 9KW 230 VDC 39 AMPS	GEMA 15KW 230 VDC 69 AMPS
BELT DRIVE (LOW MAINTENANCE)	Simple V-Belt drive, oversize pulleys with Hayes bearing supported stub shaft for maximum engine life	
L x W x H	36" x 23" x 37"	36" x 23" x 37"
FUEL TANK	12 GALS	
WEIGHT (approx.)	840 lbs.	920 lbs.
